Have no doubt, records are being kept. Records of people who protest, who refuse to wear a mask, people who refuse to be sheep.
Online social media and presence are being sifted for names and addresses of people who refuse to comply.
T wit and FB are only two.

They are making lists of the troublemakers. These are the people (Patriots) that the Deep state understands they will have a problem with during the next phase. License plates, facial recognition, photographs and video, are being taken at every protest or police action.

Word must be out, I don't see any pantifa out there being documented. I'm sure they're only too happy to stay home take their government check and 'fight the system".

They say an army travels on its stomach. Our food supplies and distribution are being attacked. I guess that makes us the army?

181 days until the election. The Deep state is desperate to keep this going until then. They have big plans for what's coming. 🙏🙏🙏

Do you rebel, do you conform keeping your head down until the right time, what do we do at this point?

And everyone in it needs to be known. (RR) If not it could start again. Please don't let the dirty players hide. There are many more people waiting for justice.

The Deep state is already accusing President Trump of

In 2016 my friend, Molly MaCauley, was stabbed to death outside her home in Baltimore. She was killed because she had discovered satellites were being used to alter State and national elections. Some of this came out in 2016 and the Deep State lost control or closed down

much of their access because they had other ways of guaranteeing their candidate would win the presidential election. I'm sure we are all familiar with what those are. They will not make the same mistake in 2020. Overall
